ENDLESS BELTING • RUBBER ROLLERS • CALENDERED

TUBEWINDER BELTS

Passaic Rubber Company's Tubewinder belts are designed, developed, and field tested as a proven successful belt in the manufacture of paper tubing!

- Truly endless, accurate lengths, and widths
- No splices or seams
- High coefficient of friction for even and smooth pulling of the paper around the mandrel
- High tensile strength, abrasion resistance and low stretch
- Both sides of the belt are utilized for maximum life and service-alternate sides for even wear
- Length stability, highly flexible
- Transverse rigidity to ensure additional stability under required pressures
- Reliable consistent feed and proven high running times
- Non marking, non toxic fast cleanup and return to service guarantee

Specification information:

- Belt widths from 1.5 inches to 24 inches
- Belt lengths from 30 inches to 550 inches
