

Passaic Rubber can package your material several ways:

Gaylord Boxes (used typically in drop shipments)

40" x 40" = approx. 4800 sq/ft & weighs nominal 2088 lbs

50" x 50" = approx. 7500 sq/ft & weighs nominal 3262 lbs

20' Container (boxed)

4 Boxes 40" x 40"

5 Boxes 50" x 50" = total 54,000 sq/ft

Pallets Pyramid Stacked

6" skid = 60 rolls (2 pc per pack) 30 packs per skid = 3000 sq/ft

12" skid = 20 rolls (2 pc per pack) 10 packs per skid = 2000 sq/ft

18" skid = 20 rolls (1 pc per pack) = 3000 sq/ft

24" skid = 10 rolls (1 pc per pack) = 2000 sq/ft

36" skid = 10 rolls (1 pc per pack) = 3000 sq/ft

48" skid = 10 rolls (1 pc per pack) = 4000 sq/ft

Pallets Vertical Stacked (better yields & warehouse friendly) we have not had problems with crushed ends

6" skid = 64 rolls (2 pc per pack) 32 packs per skid = 3200 sq/ft

12" skid = 40 rolls (2 pc per pack) 20 packs per skid = 4000 sq/ft

18" skid = 20 rolls (1 pc per pack) = 3000 sq/ft

24" skid = 20 rolls (1 pc per pack) = 4000 sq/ft

36" skid = 10 rolls (1 pc per pack) = 3000 sq/ft

48" skid = 10 rolls (1 pc per pack) = 4000 sq/ft

Normally a 44' truck holds 18-20 pallets

Normally a 53" truck holds 24 pallets
